

BIRD KEY FAMILY | BIRD KEY, FLORIDA | YEAR COMPLETED: 2022

Family Living on Bird Key

Our approach to this gorgeous new home was to give it context through a multitude of green textures, which are accented by playful pops of color that speak to the personality of this special family. In the front, the terraced hardscaping helps to ground the required elevation of the house, providing a warm, human scale to the entry experience.

Family Living on Bird Key

In the backyard, we took advantage of the spectacular canal views through more hardscaping, careful vista framing, and the design and layout of the pool, spa, and spillover water features. Pops of color continue in this space, providing the punctuation for this marriage of architecture and landscape.
